

TE Data ==> Effectiveness Index

The Effectiveness Index page is where combined Effectiveness Ratings for two categories can be brought together to produce a single rating. To be able to configure this page, it is assumed that the TE Model, the TE Categories, and the TE Category Scores to Effectiveness have been already been configured.

ID	District	Model	Name	State Code	V Score	H Score	TIP	Allow pay	Color
10350	Siesta Key School District	New York State Teacher Evaluation Model (Siesta)	Highly Effective	OCR04	4	4			Green
10347	Siesta Key School District	New York State Teacher Evaluation Model (Siesta)	Highly Effective	OCR04	4	3			Green
10344	Siesta Key School District	New York State Teacher Evaluation Model (Siesta)	Effective	OCR03	4	2			Yellow
10341	Siesta Key School District	New York State Teacher Evaluation Model (Siesta)	Developing	OCR02	4	1			Yellow
10338	Siesta Key School District	New York State Teacher Evaluation Model (Siesta)	Highly Effective	OCR04	3	4			Green
10335	Siesta Key School District	New York State Teacher Evaluation Model (Siesta)	Effective	OCR03	3	3			Yellow
10332	Siesta Key School District	New York State Teacher Evaluation Model (Siesta)	Effective	OCR03	3	2			Yellow
10329	Siesta Key School District	New York State Teacher Evaluation Model (Siesta)	Developing	OCR02	3	1			Yellow
10326	Siesta Key School District	New York State Teacher Evaluation Model (Siesta)	Effective	OCR03	2	4			Yellow
10323	Siesta Key School District	New York State Teacher Evaluation Model (Siesta)	Effective	OCR03	2	3			Yellow
10320	Siesta Key School District	New York State Teacher Evaluation Model (Siesta)	Developing	OCR02	2	2			Yellow
10317	Siesta Key School District	New York State Teacher Evaluation Model (Siesta)	Ineffective	OCR01	2	1			Red
10314	Siesta Key School District	New York State Teacher Evaluation Model (Siesta)	Developing	OCR02	1	4			Yellow
10311	Siesta Key School District	New York State Teacher Evaluation Model (Siesta)	Developing	OCR02	1	3			Yellow
10308	Siesta Key School District	New York State Teacher Evaluation Model (Siesta)	Ineffective	OCR01	1	2			Red
10305	Siesta Key School District	New York State Teacher Evaluation Model (Siesta)	Ineffective	OCR01	1	1			Red

An example report would look similar to the following where the H-score and V-score are both 3, which gets mapped to an overall score of 'Effective'

		Student Growth			
		I	D	E	H
Teacher Observation Score	H	Developing	Effective	Highly Effective	Highly Effective
	E	Developing	Effective	Effective	Highly Effective
	D	Ineffective	Developing	Effective	Effective
	I	Ineffective	Ineffective	Developing	Developing

V-score=3 (E) and H-score=3 (E) result in an overall score of **Effective**.

Creating/Editing

The first thing to consider is which Category should be on the Vertical Axis(V) and Horizontal Axis (H). This is done when configuring the TE Categories. In example, this model configuration is set to have the Observation Score be on the vertical axis within this Category configuration.

Edit category (#1992)

Model

New York State Teacher Evaluation Model (Siesta)

Name

Teacher Observation Score

Parent

--any--

☐ Ignore Blank Subcategories.

Next, it is important that each Category is provided with an Index Score within the Category Scores to Effectiveness page. This is the value that is used to map to the appropriate Effectiveness Rating.

Category	Performance min	Performance max	Index score	Rating name
Student Growth			0.000000	Cannot be determined
Teacher Observation Score			0.000000	Cannot be determined
Teacher Observation Score	0.000000	1.490000	1.000000	Ineffective
Student Growth	0.000000	12.000000	1.000000	Ineffective
Teacher Observation Score	1.500000	2.490000	2.000000	Developing
Student Growth	13.000000	14.000000	2.000000	Developing
Teacher Observation Score	2.500000	3.490000	3.000000	Effective
Student Growth	15.000000	17.000000	3.000000	Effective
Student Growth	18.000000	20.000000	4.000000	Highly Effective
Teacher Observation Score	3.500000	4.000000	4.000000	Highly Effective

When these two components are brought together, the application will then look at the Effectiveness Index to determine the overall score by looking at each index score for the vertical and horizontal axis for the earned category scores for each respective staff member and provide an overall effectiveness rating with the corresponding state reporting code as well as a color for report display.
