

02.A. Adding and Linking Standards

To add Standards to eDoctrina, a **District Admin** User can navigate to the Standards page by following the path **Planning > Standards**.

NOTE: Only District Admin profiles can add/edit standards. School Admin and Teacher profile types can View Only.

Next, utilize the filters to choosing the District Set and any other appropriate filters. Please keep in mind that if creating custom Standards for a district, choosing the district from the pull-down is required.

Standards follow a Parent-Child relationship and can be customized . Create a Parent first by clicking on the **+ Insert** button. The *Create Standard* pop-up will appear. It is required to select the District, Subject, Grade level assignment for this standard. Entering a description is also required and will represent the Name/Title of the standard.

NOTE: After adding the Standard, it will default to being on the top of the list. Refreshing the page will alphabetize the the list.

When adding the Child Standard using this method, most of the required information (including the Parent Standard) will already be filled in. Simply provide a Name by filling in the Description for the Standard.

Add standard to CC.1.G. Geometry

Once a child standard has been added to any parent, a blue plus next to the Standard will appear.

Click to expand the embedded standards and view all of the linked Child Standards:

Linking Standards Sets

eDoctrina has a goal to stay current with the Standard Sets that are available. If a Standard Set is not available for selection in a district, it is most likely that the set already exists and has yet to be linked. To request that an existing set of standards be linked to your district, please contact the help desk:

help@edoctrina.org

Scaffolding Standards from Other Sets

Those with administrative accounts are able to add or unwrap standards in banks that already exist. These additional standards will be visible throughout eDoctrina (in units, assessments, lessons, etc.). Such standards will be visible only within the creator's own district.

The process of adding the standards is exactly the same: just choose your desired District/Set, then click the  button.

The screenshot shows the 'Standards' tool interface. The 'Standards' section is active, displaying a search for 'NY Common Core Learning Standards'. The search results table lists various standards, including ELA, Science, Social Studies, and Math. Red arrows highlight the 'Standards' tab and the search results table.

	Description	Subject	Grades	Endurance	Leverage	Readiness	High Stakes	Power	Color	Active	Test Section

New "Unwrapped" Standard

Creating Test Sections

eDoctrina's design of how standards are entered into a district database offers extensive flexibility. To add to that flexibility, there is a "Test Section" checkbox available for each entered standard. By selecting this option, it is possible to utilize the standards module to create "standards" that are actually sections/parts of an assessment. When assessment results are available for an assessment with attached "Test Sections", a special version of the **Individual Student Report** is available that will provide assessment results based on the included "Test Sections" along with all the other necessary data.

Note: Add the desired standards first, then check the "Test Section" checkbox next to the corresponding standard.

Records 1-20 of 21 | Goto 1 2 next page 20 60 180 500 records per page

	ID	Description	Subject	Grades	Endurance	Leverage	Readiness	High Stakes	Power	Color	Active	Test Section

	343037	Learning Constellations	Astronomy *	4							<input checked="" type="checkbox"/>	<input type="checkbox"/>
	146408	NYS CKLA Assessments	English Language Arts *	PK, K, 1, 2, 3, 4, 5, 6, 7, 8							<input checked="" type="checkbox"/>	<input type="checkbox"/>
	376130	Part A	Mathematics *	PK, K, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12							<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
	329683	Part B	Mathematics *	4							<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
	329684	Part C	Mathematics *	4							<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

Within the Assessment Editor, it is possible to filter for these "Test Section" standards and drag/drop them to the corresponding questions within the assessment as shown below:

The screenshot shows an online assessment interface. At the top, it says "Created by Jones, Joe #274106". The question is: "Find the unit fraction that makes this sentence true: $\frac{\quad}{\quad} < \frac{1}{8}$ ". The answer choices are: a. $\frac{1}{4}$, b. $\frac{1}{2}$, c. $\frac{1}{10}$, d. $\frac{1}{3}$. The correct answer is c. $\frac{1}{10}$. The interface also shows an attachment "eDoctrina Bulb Only.JPG (28.34 kb)" and an audio note "Fraction" with a play button and a timer. On the right side, there is a sidebar with "Type" (Letter (a,b,c)), "Choices" (4), "Correct" (c), "Special scoring" (None), and "Points" (1). Below this, there are "STANDARDS" listed: "4.A.01 Evaluate and express relationships using open sentences with one operation: I can evaluate and express relationships using open sentences with one operation" and "4.A.02 Use the symbols <, >, =, and not equal (with and without the use of a number line) to compare whole numbers and unit fractions and decimals (up to hundredths): I can use the symbols <, >, = to compare decimals". The "Part A" label is highlighted with a red box.

After the assessment has been linked to "Test Section" standards and assessment data has been processed, reports applicable to these "Test Sections" are available in the Individual Student Report by selecting the Multi-Part Score Summary option.

For more information regarding generation of the Individual Student Report please refer to: [How to Use the Individual Student Report](#)

If you have any questions about anything in this guide, please feel free to e-mail help@edoctrina.org for assistance.
